LEADERS IN DIGITAL TRANSFORMATION

Quality Associates, Inc. (QAI), a Konica Minolta company, delivers Intelligent Information Management (IIM) and digital transformation solutions that help public sector organizations modernize, automate, and securely manage information.

With deep expertise spanning document conversion, records and information governance, business process automation, platform modernization, and systems integration, QAI provides the strategic guidance and technical execution required to support enterprise-scale transformation initiatives. QAI maintains a strong national footprint supporting customers across the United States.

BUSINESS TRANSFORMATION, INTEGRATION SERVICES & SOLUTIONS

QAI is a value-added reseller and trusted advisor delivering end-to-end Microsoft 365 and content management solutions, including consultation, architecture, planning, design, implementation, and user adoption support.

As a Microsoft Cloud Partner, QAI delivers innovative enterprise solutions that align business processes, compliance requirements, and user experience with modernization, including M365, SharePoint, Power Platform, and integrated third-party technologies.

QAI also brings specialized expertise in platform modernization, data migration, automation, and workflow-driven solutions for federal, state, and local clients.
