Quality Associates Hires Jeff Goss as Project Manager

Fulton, Md. – February 14, 2008 – Quality Associates, Inc., an established provider of services and solutions for document management, imaging and archiving, announced that Jeff Goss is returning to the company in the role of project manager. In this position, Goss will be responsible for overseeing the implementation of large-scale, advanced digital archiving systems for Quality Associates' federal government clients at sites nationwide.

Goss brings to Quality Associates eight years of experience in the areas of project management, graphic design and production work. Most recently, Goss was a graphic designer at Street Sense Consulting, a consulting and brokerage firm in Bethesda, Md. Prior to that, he was a technical project assistant for four years at Quality Associates, where he supervised several projects at client sites throughout Maryland.

Roger Coombs of Quality Associates' Information Systems Division said, "While our federal clients are based within the Washington, D.C. and Baltimore area, many of these agencies have multiple locations throughout the U.S. Each location requires on-site professionals who can manage the entire process and ensure that projects are completed as planned. Jeff Goss is a natural choice for the position, and his enthusiasm and attention to detail will be a great asset to our clients."

Jeff Goss said, "As project manager, I will be responsible for everything from hiring project staff to implementing software and hardware that support clients' electronic content management (ECM) systems at locations throughout the country. I am excited to be returning to Quality Associates, and I am especially eager to begin working with clients."

Founded in 1986, Quality Associates is a GSA Federal Supply Service (FSS) contract holder that

has developed a strong track record in providing data conversion and archival services and systems for local, state and federal governments.

About Quality Associates, Inc.

Quality Associates, Inc. (QAI) offers customized document and knowledge management solutions that enable organizations to maximize productivity by ensuring that information is captured, converted and accessible. As a value-added reseller (VAR) that partners with the industry's leading electronic content management (ECM) hardware and software providers, QAI offers a wide range of services and solutions that includes scanning and imaging; document and media conversion; storage and electronic archiving; and full systems integration and support with customized training programs. QAI also provides strategic quality assurance consulting and auditing services. QAI's broad client base includes federal, state and local government agencies; chemical and manufacturing companies; financial, accounting and law firms; and medical research facilities.
