Quality Associates Named Premier Solutions Reseller by Kodak

Columbia, Md. – March 28, 2006 – Quality Associates, Inc., an established provider of services and solutions for document management, imaging and archiving, announced that it has been named a Premier Solutions Reseller by the Eastman Kodak Company. Under the new agreement, Quality Associates will provide Kodak’s extensive portfolio of check imaging hardware and software solutions. With the agreement, Quality Associates can now offer a broader range of professional services to banks and commercial companies.

Kodak’s new line of check imaging equipment makes it possible to quickly and easily convert paper checks to digital images for electronic transmission for processing and settlement. Now, financial institutions, businesses, and government offices can capitalize on the benefits of the Check Clearing for the 21st Century Act. Known as Check 21, the federal legislation removes the barriers to electronic check processing, setting the stage for checks to clear within hours instead of days.

Andy Lawrence, Worldwide Solutions business manager, Document Imaging, Graphic Communications Group, said, “Kodak is pleased to welcome Quality Associates to our new Premier Solutions Reseller Program. Quality Associates has a great track record of success, and they are ideally suited to offer our complete line of check imaging solutions. Quality Associates has been a valued reseller of Kodak’s Document Imaging solutions since 2002, and we look forward to our continued success.”

Scott Swidersky, director, Information Systems Division, Quality Associates, said “Kodak is a widely recognized and respected provider of advanced imaging solutions, and we are excited to be furthering our relationship with Kodak by becoming a Premier Solutions Reseller. As an integrator of custom systems and solutions, we actively partner with the best companies in the
