Quality Associates Awarded Subcontract to Support U.S. Army Human Resources Command

Fulton, Md. -- November 16, 2010 -- Quality Associates, Inc. (QAI) www.qualityassociatesinc.com, an established provider of services and solutions for large-scale document management, imaging and archiving, today announced it has been awarded a \$460,000 subcontract with Science Applications International Corporation (SAIC) to scan and process unemployment compensation forms for former service members on behalf of the U.S. Army Human Resources Command (HRC).

The U.S. Army Human Resources Command mission is to execute the full spectrum of human resources programs, services and systems to support the readiness and well-being of Army personnel worldwide. SAIC is a government contractor specializing in the development and integration of scientific, engineering and technological applications.

Under this subcontract, QAI will provide scanning and imaging services to support the HRC's customized Automated UCS Management System, which is being installed at the HRC's new facility in Fort Knox, Ky. As a result of the Base Realignment and Closure (BRAC) effort, HRC elements in Alexandria, Va., Indianapolis, Ind., and St. Louis, Mo. relocated to Fort Knox and the Command uncased its colors at Fort Knox on June 24, 2010.

By using optical character recognition (OCR) technology, the UCS Management System can recognize and extract specific information used to validate an applicant's eligibility for unemployment compensation. Once this information is extracted, the data will be safely stored in the HRC's Enterprise Content Library Storage Center.

Scott Swidersky, Executive Director and Partner, Quality Associates, Inc., says, "It is an honor to

be a trusted teammate of a prominent government contractor such as SAIC and support the armed forces in this major initiative. We are well underway in providing services and support that will help enable the HRC to achieve its timeline and goals.”

[About Quality Associates, Inc.](#)

Quality Associates, Inc. (QAI) provides customized solutions and services that turn printed materials and electronic information into useful, organized data that can be readily located and accessed by authorized users. From scanning and imaging to complete, searchable systems that bring information directly to the desktop, QAI offers complete systems integration, support and post-deployment training to ensure success. Founded in 1986 and based near Baltimore and Washington, D.C., QAI has grown from a one-person consultancy into a trusted, experienced Value-Added Reseller (VAR) with an extensive electronic content management (ECM) supplier and partner network. QAI works with federal, state and local agencies; schools, colleges and universities; chemical and manufacturing companies; pharmaceutical, healthcare and medical research organizations; financial, accounting and law firms; professional associations; and many others. For more information, please call (800) 488-3547 or visit www.qualityassociatesinc.com.
