Quality Associates Joins in Business Relationship with Notable Solutions, Inc.

Two Maryland companies partner to distribute top-of-the-line document management solutions

Fulton, Md. – October 16, 2008 – Quality Associates, Inc., (www.qualityassociatesinc.com), an established provider of services and solutions for document management, imaging, and archiving, today announced it has entered into a strategic partnership with Rockville, Md.-based Notable Solutions, Inc (NSi), a leading provider of distributed content capture workflow and business automation solutions. The partnership certifies Quality Associates as a premier reseller of NSi's content capture and document management solutions and allows Quality Associates to market and distribute NSi's products and technical services.

NSi's product line includes a high-speed mobile scanning solution called SCANcart, which allows users to capture, in some cases, up to hundreds of images per minute. NSi's flagship product, AutoStore, enables users to automate their business processes by capturing paper and electronic documents from a variety of sources, processing them into usable information, and storing that information into business applications and databases for fast, easy retrieval, and distribution. AutoStore allows users to convert documents into different formats – such as a PDF or Microsoft Word – and then route that document to virtually any destination, such as network folders, company intranet, or e-mail.

"We are excited to have Quality Associates, a best-in-class solutions provider, join our team of strategic business partners," said Richard Bosworth, Chief Sales Officer, Notable Solutions, Inc. "Our content management and business automation technology and products will be a first-rate addition to their already comprehensive solutions line. By working together in such a close partnership, Quality Associates' clients will benefit from the newest and most innovative products NSi has to offer."

"Distributing software and technology from NSi enables Quality Associates to provide a more comprehensive solution to our clientele," said Greg Chalmers, Business Development Executive, Quality Associates. "In an

industry as complex and competitive as content management, companies and organizations are increasingly looking to adopt the most comprehensive solution packages for document management possible. Partnering with NSi puts Quality Associates another step ahead in the market, as their innovative technology allows our clients to not only scan and store documents quickly and effectively, but also provides them with the flexibility to choose which format they would like their documents stored."

About Quality Associates, Inc.

Quality Associates, Inc. (QAI) offers customized document and knowledge management solutions that enable organizations to maximize productivity by ensuring that information is captured, converted and accessible. As a value-added reseller (VAR) that partners with the industry's leading electronic content management (ECM) hardware and software providers, QAI offers a wide range of services and solutions that includes scanning and imaging; document and media conversion; storage and electronic archiving; and full systems integration and support with customized training programs. QAI also provides strategic quality assurance consulting and auditing services. QAI's broad client base includes federal, state and local government agencies; chemical and manufacturing companies; financial, accounting and law firms; and medical research facilities.
