EXCITING OFFERS TO TAME YOUR PAPER OVERLOAD

For Select FADGI Capable Scanners

Offer starts NOW through September 30, 2022!

A paperless government is being mandated, and it all starts with investing in the right systems to accelerate the data-driven digital transformation of your paper records. As you complete your fiscal year-end spend and start your future planning, Fujitsu and QAI are partnering to offer exceptional value on a full range of Federal Agencies Digital Guideline Initiative (FADGI) capable scanners to support:

- Mapping your technology replacement plan
- Meeting M-19-21 compliance requirements

If you plan on transferring your digital records to the National Archives and Records Administration (NARA) or the Library of Congress, then it is in your best interest to have a solution in place that is capable of meeting the respective FADGI standard guidelines.

Between now and September 30, 2022, we invite you to explore our special value-based offers on FADGI rated capabilities for records management archiving, capture and workflow.

**FLEXIBLE,
DISTRIBUTED
CAPTURE**
FI-7300NX

3 Star Capable

The fi-7300NX solution is perfect for agencies that want to reduce costs with PC-less scanning to realize fast ROI while ensuring image quality. Its superior paper handling and image cleanup technologies make it a great fit for:

- Remote office locations with its easy-to-use centralized management capabilities
- Departments that want to use shared devices to save money and reduce interruptions
- Small workspaces where space is at a premium

**PRODUCTION-CLASS
AUTOMATIC
CAPTURE**
FI-7600 AND FI-7700

3 Star Capable

**fi-7600 ADF
Document Scanner**

The fi-7600 scanner has a large ADF with easy alignment guides, paper straightening technology and a straight feeding path, all to protect your documents and capture data correctly and consistently.

The fi-7600 and fi-7700 scanners are both production-class document scanners. They offer incredible speed and flexibility—being able to:

- Accurately power up to 200 images per minute
- Continuously scan with a high-capacity 300-page automatic document feeder
- Scan thick or bulky materials
- Accept a wide variety of documents, such as: thin paper, plastic cards, long documents and envelopes
- Protect your paper—and the information on it—with advanced security features
- Accurately capture documents with smart features, such as image cleanup, auto color detection, blank-page detection and more

3 Star Capable

**fi-7700 ADF +Flatbed
Document Scanner**

The fi-7700 scanner enables your back office to be more productive and make fewer errors with automatic, flatbed scanning and innovative features for making clear, accurate scans every time.

**ADVANCED
PRODUCTIVITY FOR
HIGH-VOLUME CAPTURE**
FI-7900

3 Star Capable

The fi-7900 model scans A4 landscape documents at high speeds of 140 ppm/280 ipm (200/300 dpi). Capable of scanning up to A3 sized portrait documents, it can load up to 500 sheets at a time and features advanced software for maximized efficiency to help ensure:

- Accurate feeding for optimum productivity
- Organized paper output for clean and fast workflows
- Stress-free usability with an operator-friendly design

Offer expires September 30, 2022.

Federal Government Compliant: FADGI Capable*, TAA and EPEAT Silver

* The Fujitsu fi-7300NX, the fi-7900, the fi-7700 and the fi-7600 scanners are capable of fulfilling the "FADGI 3-star" standards when calibrated accordingly. All previous testing for endorsement had been completed at the scanner's rated speed, in addition to extensive image analysis reports to ensure our scanners are capable of outputting the FADGI standards.

ACT NOW TO DRIVE YOUR DIGITAL TRANSFORMATION IN MEETING UPCOMING CHALLENGES!

This offer is ideal for technical replacement planning and M-19-21 digitization efforts. To learn more about it and how our scanners are capable of meeting FADGI standards, contact Tiffani Mitchell today at www.qualityassociatesinc.com/fujitsu-scanners/ or 410-884-9100.
