Digital Innovation Center

INSIDE OUR INNOVATION CENTER

Address	11850 West Market Place, Suite P, Fulton, MD 20759
Processing Center	80,000 sq. ft.
Staffing Capacity	200 - 400
Throughput Capacity/Scalability	25 million per month
Captured Media	Paper files (all sizes), film/fiche/aperture cards, maps, blueprints, drawings, bound material, photos, slides, and X-rays
Capture Platforms	Built to support NARA/M-23-07 compliance digitization requirements (36 CFR 1236 Subpart E) as well as high production, ADF and flatbed, micrographics, books, and large format
Capture Capabilities	Automated processing (IDP/AI), centralized and decentralized processing (on-site or off-site), forms processing, barcode and zonal recognition, and multi-format output
Security	Controlled facility access, documented chain-of-custody, and continuous video surveillance integrated with central monitoring
Technology	Tooling to support end-to-end digitization: capture, OCR/ICR and extraction, workflow control, and quality measurement—producing accessible, compliant, and auditable digital deliverables
Certifications	SOC 2, NIST SP 800-171, and CMMC
